AISS 2026

Osaka, Japan | October 23-25

2026 Second International Conference on Artificial Intelligence for Sustainable Society

Special  
Session 1

HUMAN-CENTERED AI GOVERNANCE, LABOUR, AND DIGITAL SOCIETY

◆ Call For Papers

TOPICS OF INTEREST INCIUDE, BUT ARE NOT IIMITED TO

- Human-Centered AI
- AI Governance
- Digital Government
- Platform Governance
- Algorithmic Management
- AI and Labour Policy
- Responsible AI
- Explainable AI
- AI Ethics
- Public Administration
- Digital Transformation
- Social Sustainability
- Collaborative Governance
- Digital Inclusion
- Gender and AI
- Indigenous AI
- Smart Cities
- E-Government
- Human-Computer Interaction
- AI Policy and Regulation

◆ Important Dates

Submission Deadline

September 15

Notification Date

September 30

Registration Deadline

October 10

Conference Date

October 23-25

◆ Publication

All accepted papers will appear in the conference proceedings published by Springer-Verlag in One volume of Springer Book Series Smart Innovation, System and Technologies (SIST).The book series is indexed by SCOPUS, EI Compendex, INSPEC, WTI Frankfurt eG, zbMATH, Japanese Science and Technology Agency (JST), SCImago, DBLP. All books published in the series are submitted for consideration in Web of Science.

SESSION CHAIR

Fu-Hsuan Chen

Assistant Professor

National Chengchi University, Taiwan

Artificial intelligence is rapidly transforming governance, employment, and public services across the world. While technological innovation creates new opportunities, it also raises important questions regarding transparency, accountability, labour rights, digital inclusion, and human-centered design. This Special Session aims to provide an interdisciplinary forum for researchers and practitioners to discuss emerging challenges and governance approaches related to AI-enabled digital transformation. The session welcomes theoretical, empirical, and comparative studies examining how AI influences public administration, labour markets, platform governance, digital government, social sustainability, and organizational decision-making. Particular attention will be given to human-centered AI, ethical governance, digital inequality, Indigenous and minority inclusion, gender perspectives, and collaborative governance. By bringing together scholars from public administration, information systems, management, social sciences, and engineering, this session seeks to promote cross-disciplinary dialogue and identify innovative governance strategies for responsible AI development and implementation.

◆ Submission

ENTER THE SUBMISSION SYSTEM  
AND SELECT SPECIAL SESSION

- Submissions should include author information, abstract, 5-10 keywords, and be in PDF format. Paper length should be longer than 10 pages in conference template.
- Abstract/ Presentation: Abstract submission required; oral presentation only; will not be published.
- Full Paper/Publication: Full paper submission required; presentation required; will be published.
- Submission Link: <https://www.zmeeting.org/submission/aiss2026>

Conference Program ◆

October 23, 2026 | 10:00 - 17:00

Pre-conference Registration

October 24, 2026 | 08:30 - 12:10

Walk-in Registration & Information Booth  
& Keynote Speech

October 24, 2026 | 15:30 - 20:00

Concurrent Sessions & Dinner

October 25, 2026 | 09:00 - 17:00

Excursion or Technical Visit
